Mariia Zhenchur

Junior WebUI Software Engineer (React + Node.js)

Summary of Qualifications	I have been studying frontend development for a year and a half, focusing on **HTML**, **CSS**, and **JavaScript**, along with frameworks like **React** and **Redux**. I have experience building dynamic, responsive applications with a strong emphasis on performance optimization, cross-browser compatibility, and accessibility. My skills also include integrating **RESTful APIs** and managing projects using **Git** for version control. I am eager to bring my knowledge, adaptability, and passion for learning to your team.

Skills

Programming Languages

- JavaScript
- Typescript
- HTML
- CSS
- PHP (basic knowledge)

RDBMS

- My SQL
- PostgreSQL
- phpMyAdmin (basic knowledge)

Methodologies

- Agile
- SCRUM

Testing

- Jest
- React Testing Library

Soft Skills

- Problem-solving
- Communication
- Team collaboration
- Time management
- Adaptability
- Attention to detail
- Self-motivation
- Willingness to learn

Languages

- Ukrainian (native)
- English (B2)

Frameworks/ Technologies

- React
- Redux
- Node.js
- RESTful APIs
- Axios
- jQuery
- Material-UI
- Bootstrap
- OOP
- Ajax
- JSX

Development Tools

- Visual Studio Code
- GitHub
- Postman
- Npm
- Webpack
- ESLint

Operating Systems

- Microsoft Windows XP/7-11
- Linux

Version Control

- Git

Other

- Responsive design
- Cross-Browser Compatibility
- Performance Optimization
- Accessibility
- JSON Data Handling
- BEM Methodology

Experience

CoffeeLax Bonus Program

Project Description:	Created a loyalty program for CoffeeLax to track customer bonuses via phone numbers, automatically calculating and storing points. It supports manual adjustments and currently manages **500+** customers.
Customer:	CoffeeLax
Involvement Duration:	3 months (February 2024 – May 2024)

Project Role:	Full-Stack Developer
Responsibilities:	▪ Design and develop ▪ Build backend logic ▪ Create a database ▪ Develop an interface for management
Project Team Size:	1
Tools & Technologies:	JavaScript, PHP, phpMyAdmin, HTML5, CSS3

Artist Website (rose-artist-page)

Project Description:	Developed a responsive artist portfolio website with HTML, CSS, and JavaScript, using BEM methodology. It features a shopping section powered by a JSON file for product management and utilizes Bootstrap for responsive design.
Customer:	Personal Project
Involvement Duration:	1 month
Project Role:	Front-end Developer
Responsibilities:	▪ Build a shopping section with JSON inventory ▪ Ensure responsive design across devices ▪ Integrate Bootstrap ▪ Use BEM methodology
Project Team Size:	1
Tools & Technologies:	HTML5, CSS3, JavaScript, JSON, Bootstrap

Recipe Finder

Project Description:	Developed a responsive web application that allows users to search for recipes based on available ingredients. The application integrates with an external recipe API to fetch and display relevant recipe data, including cooking instructions, ingredients, and meal preparation details.
Customer:	Personal Project
Involvement Duration:	2 weeks
Project Role:	Front-end Developer
Responsibilities:	▪ Create UI with React and CSS ▪ Integrate recipe API ▪ Implement scroll-to functionality ▪ Optimize responsive design ▪ Manage state and API calls
Project Team Size:	1
Tools & Technologies:	React, JavaScript (ES6+), CSS3, HTML5, Fetch API, Axios, Responsive Design (Media Queries)

Mr. Snowman Cafe - Blog Section (https://koldovsky.github.io/1076-team-02/)

Project Description:	Developed the Blog section for a non-commercial website of an ice cream cafe "Mr. Snowman Cafe" as part of a team project at SoftServe Academy. The blog showcases articles about ice cream, including news, special offers, and history.
Customer:	SoftServe Academy
Involvement Duration:	1 month (October 2023)
Project Role:	Front-end Developer
Responsibilities:	▪ Create responsive Blog layout ▪ Integrate dynamic article rendering from data array ▪ Style section ▪ Build a responsive grid layout ▪ Implement JavaScript
Project Team Size:	11
Tools & Technologies:	HTML5, CSS3, JavaScript (ES6), Responsive Design (Media Queries), Grid Layout, Version Control (Git)

Certifications	Practical React July 2024 – September 2024
